The National League Amends Some of its Former Rules.

(Copyright, 1887, by the California Associated Press.)  
NEW YORK, November 16th.—The annual meeting of the National League began in this city this evening. President Knickerbocker presided. The convention had been adjourned for the work of the reconstruction of the constitution, and that the Brotherhood matter would be taken up in the morning. The first change adopted in the constitution was the striking out of the words "with any other club" in the rule forbidding Sunday playing.

Playing rule 43 was amended so as to read: "Two players, whose names shall be printed on the score card as extra players, may be substituted at the end of any completed inning by their regular players, and shall not thereafter participate in the game. In addition thereto a substitute may be allowed at any time in the game, and may play a game by injury or illness, of the nature and extent of which the umpire shall be the judge." This section is subject to the approval of the league.

Rule 41, relating to forfeited games, was also amended (subject to the approval of the league) to read: "If a game is forfeited, the club entitled to the forfeited game the privilege of refusing it."

Section 42 of section 41, referring to umpires' salaries, was amended by substituting the rule that they be paid in accordance with the contract between them and the Secretary of the League, subject to the approval of the Directors.

Section 50 was amended to permit of any change in the position of the umpire, and to read: "The umpire shall be paid on the ground of either club by contract."

Application of A. Nichols, who has been on the blacklist for several years, for reinstatement, was refused. The changes in the rules of the league, some months ago, were announced, and were finally carried out.

After the ceremony, Mr. Knickerbocker returned to his home on H street, while the large group returned to their hotel.
